SPECIAL FEATURE

Attach More (and Bigger!) Files Now in BIM

We are very excited to announce that Big "I" Markets has been updated to allow for up to 10 files to be attached to one "New Message" and an expanded file size capacity from 4MB to 10MB. We hope you find these enhancements to the Big "I" Markets platform helpful. We will continue to implement enhancements to Big "I" Markets to make doing business on BIM as easy as possible. We value your input, so if you have any additional enhancement recommendations, please do not hesitate to send them to bigimarkets@iiaba.net.
