

# JOIN THE TECH-FORWARD INDUSTRY MOVEMENT

You don't have to be a tech expert to be part of our team!

We NEED your insights and experience with agency workflow challenges to help drive technology improvements in our industry.

## WHAT IS THE BIG "I" AGENTS COUNCIL FOR TECHNOLOGY?

The Agents Council for Technology (ACT), a program of the Independent Insurance Agents & Brokers of America, (Big "I") leads the independent insurance agency system in implementing innovative technologies and workflows. This forum of agents, brokers, vendors, carriers, and other industry groups conducts research and provides collaborative recommendations to help the insurance industry implement effective, efficient technology.

## GET THE INSIDE ADVANTAGE

Work with carriers, vendors, and other agency leaders to develop best practices and tools to help the independent agency system thrive. Through our work groups, ACT members come together to share insights that enhance workflows and services. These work groups create industry-wide education, FREE for all Big "I" agents and in addition provide recommendations on emerging trends, cybersecurity, customer experience, data & analytics, disaster planning, and other tech-related focus areas. Our goal is to provide resources to help you increase efficiency and exceed your client's expectations.

## ACT BENEFITS

- ✓ ACT membership is FREE for all Big "I" independent agents through the generosity of our ACT supporting members
- ✓ Serve on work groups and participate in our bi-annual ACT Meetings alongside carriers, agents and technology vendors
- ✓ Engage with industry innovators to create roadmaps for effective technology solutions
- ✓ Gain access to a forum for insurance companies, agencies, technology providers, associations and user groups to forecast technology trends
