SPECIAL FEATURE

Webinar will Outline the Chubb Flood Difference

Flooding is the most common natural disaster in the United States, affecting every state. In addition to hurricanes, flooding can be caused by rainstorms, snowmelt, runoff created by wildfires and much more.

Everyone lives in a flood zone - it is just a question of whether the home is in a moderate-to-low zone or high risk area. While flood insurance is typically required on properties in high risk areas, people outside of high-risk areas file over 20% of NFIP claims.

Chubb offers flood insurance to affluent homeowners through Big "I" Markets. Join BIM and Chubb on Feb 21, 2019 at 2 p.m. Eastern for a [free webinar](#) providing an overview of flood insurance available to your insureds through the Chubb affluent program.

Panelists from Chubb include:

Tracey Reid, ASLI

Underwriting Manager, Private Flood Services Division

Lydia Argote, ANFI, CPSR

Senior Underwriter, Private Flood Division

Meghan Jackson

Washington DC Business Development Manager, Chubb Personal Risk Services

Register today. There is no cost to attend; please note this session is open only to registered Big "I" Markets agents.
