## REAGAN

## 2022 BEST PRACTICES STUDY ENHANCEMENTS

While the Best Practices Study has been a leading industry report for the past 29 years, there is also a need to modernize the process for collecting and analyzing the data to create a more dynamic interface for users and supporters.

Reagan is excited to partner with an insurance focused technology vendor, ennabl, to provide a digital data portal for agencies to submit and review their data.

In March 2022, nominated agencies, instead of filling out an excel spreadsheet, will be given unique login credentials to a customized and interactive online portal.

## **BENEFITS:**

Portal pre-

data

firm's historical

populated with

Multiple users can see their firm's data submissions in realtime

Accelerate the data collection time and simplify the user experience

Interactive visualizations where agencies can see historical trending

Reagan and the Big "I" will remain the Study's producers and conduct all the analysis.

Reagan and ennabl have focused on data collection and security to provide a confidential process for all BPS candidates.
