How to Reduce Your Business Insurance Rates

If you're just opening up shop, you are probably wondering what risks you need to cover with insurance. You will need to cover a range of risks and potential incidents, like accidents, injuries, equipment damage, theft and liability claims. Even if you have a well-established corporation, you may be wondering if the coverage you do have is right for your needs and is fairly priced. Is it possible you can get the same or better coverage elsewhere for less?

An experienced independent insurance agent can help you assess which of the many types of commercial coverage are appropriate for your business, and can look for all available discounts on your behalf. [Contact an agent](#) in the Trusted Choice network who specializes in commercial insurance to get a complete assessment of your needs. Independent agents can not only help you compare business insurance plans and prices, but can also help you get all of your business coverage from one office.

FOUNDED IN 1974

The most valuable thing we protect is your Peace of Mind.

In its simplest terms, insurance is the transfer of risk that you do not wish to take. It is our job to identify and understand those risks you do not wish to take and find the contract, carrier, and price that best suits your needs.

While price is a very important part of the end recommendation, it is not the end all. We will not present the lowest price if it does not meet the need. Our advisors are trained to ask the right questions to understand your needs and then, utilizing technology, market those needs with various carriers. The end result is a recommendation tailored and sensible. Contact us to experience our process and learn why over 5,000 households trust Ericson.

Ericson Insurance has been serving the insurance needs of Litchfield County, Connecticut for over 70 years. We also have offices in New York and Boston with capabilities nationally.

Where you're a participant, not just a vendor

Elevate 19 is everything you've come to expect plus a revamped program that provides increased visibility, networking time and flexibility.

Integrated Exhibitor Hall

The exhibitor hall is located within the meal and break room, putting your company in the middle of all the action. And it all starts with a Sunday night welcome party that takes place amidst your displays.

More Networking Time

You'll be able to capitalize on your increased visibility with longer breakfast and lunch breaks that give attendees more time to visit. Plus with evening events ending at a respectable hour, you can use the time to create your own post-party networking opportunities.

Contribute to the Conversation

Elevate is all about community and so we've created a program that combines points of view from every side of the IA channel. We'd love to talk to you about ways for your company to share their perspective in a meaningful way.

Flexible Packages

We've created new sponsorship packages that provide more value and flexibility, allowing you to find one that fits your needs. Or, let us help you build a custom package that is exactly right for your brand.
