BIG i AGENTS COUNCIL FOR TECHNOLOGY.

CARRIER PARTNERS

WHAT IS THE BIG 'I' AGENTS COUNCIL FOR TECHNOLOGY?

The Agents Council for Technology (ACT) is a neutral forum composed of and supported by agents, brokers, carriers, technology providers and industry groups. Our passion: **helping the independent agency channel embrace technology** as a way to execute their unique business strategies.

Our Three Pillars:

- *Artificial Intelligence* – Help agencies adopt AI tools that improve service, efficiency and growth.
- *Connectivity* – Close integration gaps and streamline workflows.
- *Data* – Improve data quality, access and transparency across systems.

WHY PARTNER WITH ACT?

Since 1999, ACT has connected supporting partners with the Big "I" network of nearly 25,000 independent agency locations nationwide. Every Big "I" member agency is automatically an ACT member.

A Seat at the Table

Supporting partners join the conversations that shape how the independent agency channel adopts technology, and help build the practical, agent-ready resources that come out of them.

Understand What Agencies Need

Hear firsthand what agencies need from their carrier partners. Work alongside agents and technology providers to solve shared workflow and connectivity challenges.

PARTNER BENEFITS

- **Industry Engagement:** Speak at ACT events, join partner meetings and collaborate with Big "I" state associations.
- **Thought Leadership:** Share your expertise with Big "I" agents through ACT webinars, articles, videos and podcasts.
- **Exclusive Workgroups:** Help shape industry initiatives that deliver practical, agent-ready solutions.
- **Recognition:** A welcome announcement from ACT and a listing on the ACT Supporting Partners page.

ANNUAL MEMBERSHIP TIERS

For Carrier Partners:

- Under 350 employees: $5,000
- 350–700 employees: $7,500
- Over 700 employees: $12,500
